MANAGING POST-ACUTE CARE TO REDUCE HOSPITAL READMISSIONS

**Presented by: Shark Bird, MD, Vohra Post-Acute
Physicians**

More than 60 percent of Illinois hospitals have been penalized for too many hospital readmissions – and they are expecting their referral network of nursing facilities to work with them to reduce rehospitalizations. In the next two years, nursing facilities rates will also be penalized for high hospitalization rates and managed care companies already want to know your track record. This session will focus on evidence-based approaches that facilities can use to strengthen their post-acute treatment of residents, improve resident care, and enhance their reputation.

Dr. Shark Bird is the Chief Medical Officer of Vohra Post-Acute Physicians.

10:45 am – 12:15 pm

PRACTICAL STEPS IN REDUCING PSYCHOTROPIC MEDICATIONS

Presented by: Omnicare

The fastest increasing certification violation is unnecessary psychotropic medication utilization. It has been the announced priority of CMS for three years – and facilities have begun to receive Immediate Jeopardy violations for failure to reduce the use of psychotropic medications. Illinois has one of the highest utilization of psychotropic medications in the country and we are definitely under an enforcement microscope. This session will be a practical step-by-step guide of how to review your current utilization and how to implement reasonable reduction.

NAVIGATING THE CHANGING MANAGED CARE LANDSCAPE

Presented by: Neville Billimoria, Duane Morris LLP

The influence of the two Illinois managed care initiatives (Medicare Medicaid Allignment Initiative – MMAI and the Integrated Care Program (ICP) are rapidly spreading their influence throughout Central Illinois in 2015. This session will update participants on the most recent changes to the Illinois managed programs and how to make the appropriate changes and adjustments at the facility to respond. The session will also discuss how to successfully negotiate and amend the facility MCO contracts to allow for effective and efficient provision of care to managed care residents.

Neville Bilimoria is a partner with Duane Morris LLP's health Practice Group in Chicago and was named one of the top 40 attorneys in Illinois under 40 in 2005, has been designated "Illinois Super Lawyer," and was chosen as a "Leading Lawyer" in healthcare law.

3:00 – 4:30 pm

UNDERSTANDING LIFE SAFETY CODE THROUGH PENETRATION FIRESTOP

Presented by: Ronald Trinidad, 3M Company

Correcting Life Safety Code K-tag violations may often seem like traveling to a foreign country with its own language and bewildering new expectations. Sometimes even the simplest solutions can seem complicated. This session will help administrators identify a UL Rated system as part of the plan of correction for IDPH K-tag citations, review the fire safety penetration system for the facility and understand how to procure Engineering Judgments and technical support.

Ronald Trinidad, LAS, is a Fire Protection Specialist for the 3M Company and has worked with inspectors, fire marshals, installers, architects, engineers and facilities in bringing their fire barriers up to code.

4:30 – 6:00 pm Social Hour (and a half)

CLINICAL MANAGEMENT AND JUSTIFICATION OF RUGS REHABILITATION

Presented by: Allen Johnson, Rehab Care Inc.

The top audit, recoupment and fraud priorities of OIG, MAC and RAC are the scoring of the RUGs rehabilitation categories. It is crucial that facilities identify the clinical rational for rehab RUG intensity, understand the importance of the ADL end splits, and document correctly in order to avoid triggering unnecessary federal and state scrutiny.

Allen Johnson, OT/L, MBA, is an Occupational Therapist and Clinical Performance Specialist for Rehab Care Inc. He has extensive experience in the rehabilitation of the geriatric population across the post-acute continuum of care. He is retired US Army Captain and a veteran of the Iraq War.

10:00 am – Noon

BEING PREPARED FOR THE MEDICAID RUGS 48 AUDITS – DON'T BE SURPRISED AND DON'T BE CAUGHT SHORT

Presented by: Marilyn Mines, FR&R

Audits of the Medicaid RUGs 48 reimbursement system have already started. HFS has identified numerous areas of concern that will impact the outcome of future audits and a facility's Medicaid reimbursement. This session will help you prepare the necessary systems and documentation to be ready before an HFS audit comes knocking on your door. This session will review the qualifiers, the documentation, and the key areas for self-audit to be ready for any on-site HFS audit.

Marilyn Mines, RN, BC, RAC-CT, is Senior Manager for Clinical Services for FR&R. Marilyn was Nursing Director at a 300-bed facility for 13 years, was a independent consultant for 10, and joined FR&R in 1998 to provide revenue, reimbursement and compliance information to more than 100 nursing facilities and 250 companies.
